

### **SNIP LEVEL 7-ELIGIBILITY EDIT**

Over the past year, The Health Plan has successfully transitioned our electronic claims review process to incorporate Edifecs Transaction Manager. Currently, all default HIPAA EDI compliance checks (WEDI SNIP levels 1-6) are enabled along with one payer defined edit (WEDI SNIP level 7) for a duplicate claim check.

We are soon introducing an additional WEDI SNIP level 7 edit for eligibility. This edit will check the subscriber and patient demographic information to determine if they are a THP member in our system. The possible rejections you may see include:

- A3:158:QC: Subscriber/Patient DOB is incorrect. There could be a partial match of member ID and gender, but the submitted date of birth does not match the one in THP's system.
- A3:88:QC: Subscriber/Patient member ID is not in our system.

### **WEBSITE CLAIMS NOW GOING THROUGH EDIFECs**

The claims submitted through the website are now being checked for HIPAA compliance. Once submitted, you will immediately be notified of claim status. Unaccepted/Rejected claims will need to be corrected and resubmitted.

<b>Error Severity</b>	<b>Action</b>	<b>Description</b>
Information	No action needed	This is just to show a successful submission or generic message.
Warning	No action needed	This is just to show a possible issue that may be occurring in the data submitted but the claim submission is not rejected for this reason.
Error	Action needed	This could be a processing issue that may have caused your claim to not be submitted. Reach out to Provider Services.
Normal	Action needed	The claim submission is rejected and is not in our system. If you have any issues verifying what the issue was, contact Provider Services.

EXAMPLES:

**Rejected-** fix errors and resubmit

Claim ID - Status Number	Acknowledgement ID	Severity	SNIP Level	Error Data	Short Description
1071 - 1	0x3938af8	Normal	4		Date - Admission is required on inpatient claims.
1071 - 2	0x39392e1	Warning	2		Rendering Provider's first name is required when person has a first name.

**Accepted**

Claim ID - Status Number	Acknowledgement ID	Severity	SNIP Level	Error Data	Short Description
2027 - 1	THP_Success	Information	7		Claim submitted successfully. Thanks!
2027 - 2	0x39392e1	Warning	2		Rendering Provider's first name is required when person has a first name.
